

VIVEKANANDA PAATHSHALA- APRIL 2023

The month of April, 2023 was filled with amusement along with a great amount of knowledge. We at JKPS welcomed the children in the new session with a warm heart and open arms. School bags were distributed to begin the session with great excitement.

The children participated enthusiastically in the sports class. Sports helps to bring out the best in children and help them to calm down their body as well as learn the important values of discipline in life. The children actively participated and enjoyed the Relay race.

Learning spellings is a fun way to develop the interest of a child in learning language. It not only gives power to the writing of child but also boosts his/her confidence. Children were given an opportunity to learn spellings through games which made it fun. To further enhance their linguistic skills, an interesting session on sentence formation was organised.

An informative session on safety while using the internet was organised to make the children responsible. Lots of tips related to the safe and correct usage of internet were shared.
