

VIVEKANANDA PAATHSHALA

NOVEMBER 2023

Vivekananda Paathshala is a profound **journey of mutual learning and growth**. It has reinforced the belief that education has the power to break barriers and create positive change. The experience not only impacts the lives of the students but also leave an indelible mark on our volunteers, **fostering a sense of responsibility and a commitment to making a lasting difference in the community**.

Vivekananda Paathshala isn't just about teaching; it is about building connections and nurturing a supportive community. Our teachers and volunteers build strong bonds with the students, creating a safe space for them to express themselves and explore their potential.

Our dedicated team of volunteers engaged in interactive teaching methods, incorporating creative activities to make learning a joyful experience.

Students were explained chemical symbols with their application in writing chemical formula. Students noted down important points and practiced in the class itself.

The students were also taught the concept of polynomials, factors and remainder theorem and its real-life application.

Moving beyond academics and promoting holistic development, the children were briefed regarding the increasing smog in Delhi and the measures they must take to reduce the impurities in air and tips on how to keep themselves healthy in this scenario were shared.

It was also fun for the students at Vivekananda Paathshala to celebrate birthdays with their friends. There was cake-cutting ceremony and refreshments were distributed as they joyfully danced together, the students relished their time at JKPS.
