

*“Knowledge is power. Information is liberating. Education is the premise of progress, in every society, in every family.”*

– **Kofi Annan**

We are delighted to inform you that Team JKPS has moved a step ahead in enlightening the lives of the children of Vivekananda Paathshala through Zoom sessions every Saturday. July was a month that marked the learning of a lot of new skills for our students of Vivekananda Paathshala.

As we all know that during these prevailing times a doctor plays an important role and to pay regard to the doctors, we celebrate **National Doctors’ Day** on 01 July every year. It was celebrated at JKPS too with our Vivekananda Paathshala students to make them aware of the dedicated medical professionals and to thank our doctors for providing us with selfless service and health care.

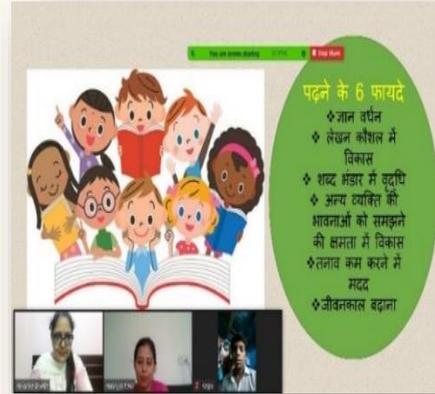

The students were explained the process of how to take up this noble profession and serve the nation and its people as a true saviour. The main point of discussion was how all the doctors and nurses are risking their lives to save us. A few of them who lost their lives during these unprecedented times were also remembered by our JKPS team.

Thereafter, a **Reading activity** was conducted in honour of Shri P.N. Panicker, the man behind Kerala's Universal Literacy Rate.

Students were made aware of the benefits of reading by a story session where the teacher and students read a story online with expressions and correct pronunciation.

The story was also explained to the students in Hindi. The Q & A session right after the story was greatly enjoyed by everyone.

The session ended with a self-introduction activity wherein children were motivated to introduce and speak about themselves. This helped them to gain confidence and know each other well.

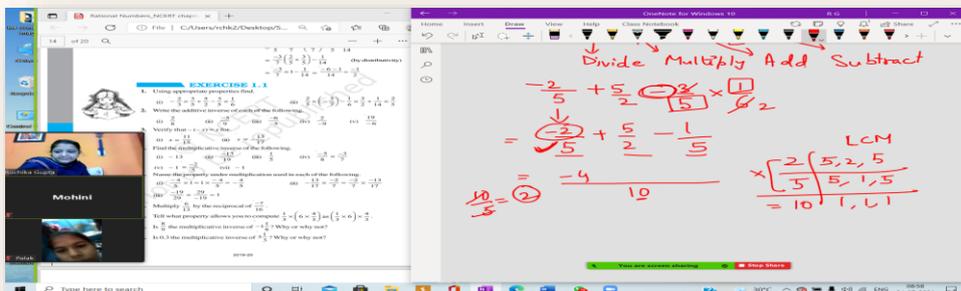

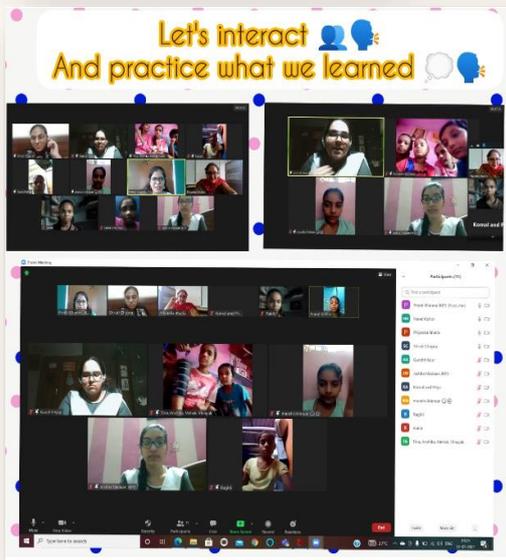

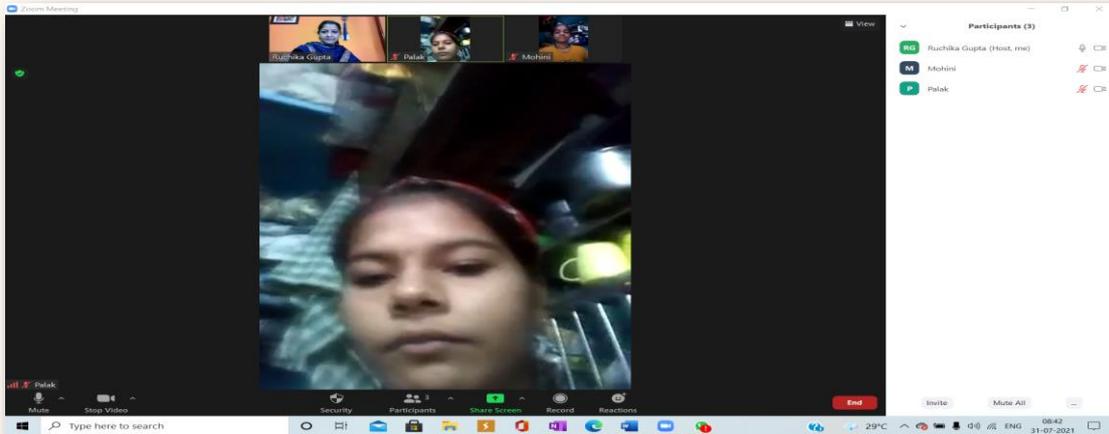

Thus, JKPS took the initiative further in helping the children of Vivekananda Paathshala learn how to start a **conversation with someone in English**. The session was also joined and taken up by our student volunteers who took an active part in helping the Paasthshala students in learning basic English conversation.

The Jaspalians conversed with them in English to give them practice and to help them gain confidence.

Our teachers are also taking **one-on-one doubts sessions** on Zoom. This step has been taken to make students academically strong and confident.

In addition to these activities, **videos made by the Jaspalians on topics like humbleness and how to stay connected during tough times** were also shared to keep the students motivated.
