"Witnessing History: Our School's Live Telecast of Chandrayaan 3 Landing"

"Chandrayaan-3 scripts a new chapter in India's space odyssey. It soars high, elevating the dreams and ambitions of every Indian. This momentous achievement is a testament to our scientists' relentless dedication. I salute their spirit and ingenuity!" – PM Narendra Modi

The anticipating hearts of all the Indians out there were filled with immense joy and pride when our nation became the 4th country to have a soft landing on the surface of the moon and became the first one to do so on the south pole of it.

We Jaspalians had no bounds for our excitement and were very thrilled since the morning as this was finally the day of landing. The student council members decided to come together to host a Live broadcast of the landing of Chandrayaan-3 in our school auditorium. After getting a green flag from our respected Principal Mrs. Asha Saran Srivastava on our small initiative, we all with an elevated heart started working to conduct and offer all the guests a smooth and gracious event.

All the student council members from Grade IX – XII were asked to assemble in the assembly hall where everyone was given an invite to come along with their parents and grandparents and duties were assigned to the members. We all were requested to maintain the decorum of the school and make sure that our excitement doesn't get out of hands. An open invitation was given to all the parents, students and the staff members to grace us with their presence from 5:00pm to 7:00pm.

One of the key highlights of the event was that we had invited students of our students of Vivekananda Pathshala and watching those little kids holding Indian flags in their hands and their faces full of curiosity was a beautiful sight.

At 5:15 sharp the whole auditorium was filled with enthusiasm when the live stream from ISRO's YouTube channel started on the big screen. We could hear the fast beating of everyone's heart and everyone's anxiety was at peak. It was a moment of pure delight and an honour to witness such a historic moment, as the parents, students and staff watched Chandrayaan - 3 make a soft landing on the moon. Our guests were extremely rejoiced and were on cloud nine with joy and pride, while singing Saare Jahaan Se Achaa Hindustaan Hamaara.

Our heartbeat fastened as the altitude between the spaceship and the moon decreased and finally in the euphoric moment you could hear the Indian within us screaming with contentment. To celebrate India's victory, we hoisted the tricolor flag in the sovereign air and let the world know that we had finally done it!

Indians and their brilliant minds will never fail to create history, a rocket launched in almost half the budget of an average Hollywood film proved the world that with the correct resources and support we will be unstoppable.

Jai hind! Jai Bharat!
