

### **Awareness Workshop on Safe Touches**

An awareness workshop for the teachers of preschool to classes III was held on 27 May 2023 on Safe Touches. The workshop was organized by the school counsellor Ms Sheetal Dewan.

The session commenced with an introduction to safe touches. The school counsellor explained the concept of safe touches and bad touches to the teachers. The teachers were sensitized about the need to teach children about safe touches and to help them identify and report any incidences of abuse.

The teachers were then told about the signs of abuse and how to identify them. The school counsellor emphasized the importance of building trust and open communication with children. Teachers were also given strategies to prevent child abuse and to create a safe learning environment for students. The awareness among parents and building a strong community response to child abuse was also discussed.
