Workshop on Stream Selection for Classes IX and X

Jaspal Kaur Public School held a Career Care Workshop on October 23, 2024, designed to provide Class IX and X students with valuable insights and tools for making informed career choices as they near the end of their secondary education. The workshop was led by Mr. Vaibhav Sharma, a seasoned career coach and personality trainer, known for his expertise in exploring diverse career paths, guiding students through self-assessment techniques, and presenting various educational options.

The objective of the workshop was to introduce students to a wide range of career fields and pathways and help students identify their interests, skills, and potential career choices after Class X.

The workshop began with an introduction to the importance of career planning and an overview of the day's agenda. Mr Sharma presented various fields, including science, arts, commerce, vocational training, and emerging industries such as technology and healthcare. This segment generated significant interest among students. Students participated in interactive activities designed to assess their interests and skills. Using questionnaires and group discussions, they began to identify potential career paths aligned with their strengths. Facilitators discussed different educational tracks, including higher secondary education options and vocational training programs. Information about local institutions and courses was provided. Mr. Vaibhav shared their experiences and answered student queries, offering real-world insights into various careers. This segment was particularly engaging, as students asked questions about job expectations and pathways

During the workshop, students engaged in interactive activities, such as personality assessments and group discussions, which helped them identify their interests and strengths. Guest speakers from various professions shared their experiences, offering valuable insights into the skills and education required for different careers. This hands-on approach not only enhanced students' understanding of potential job options but also equipped them with practical tools for decision-making and goal setting.

The workshop saw the active participation of students in grades IX and X. Feedback indicated that students appreciated the interactive elements and found the information presented to be valuable in shaping their future plans. Many students expressed that the workshop helped clarify their thoughts about future careers and provided practical steps for decision-making.

The Career Planning Workshop was successful in providing students with critical insights into career options and educational pathways. It fostered an environment of exploration and discussion, empowering students to take charge of their career planning. The school plans to continue offering such workshops annually, incorporating feedback to enhance the experience.
