Career Planning and Personality Development

On 2 April 2024, Jaspal Kaur Public School organized a career planning and personality development workshop for the students of classes X and XII. The workshop was conducted by Mr. Vaibhav Sharma, a renowned career counsellor. The aim of the workshop was to guide students towards choosing their career paths, help them understand the various options available, and gaining insights into how their personality and aptitude help them in making informed career decisions.

Mr Vaibhav in his workshop focused on some essential personality traits such as extroversion, introversion, resilience, locus of control, and enthusiasm, along with the importance of teamwork and how they are imperative in building a career.

The workshop concluded with a question-and-answer session, where the students could interact with Mr. Sharma and clarify their doubts. The students found the workshop extremely informative and helpful in making decisions about their future careers.
