“If a child can’t learn the way we teach, maybe we should teach the way he learns”.

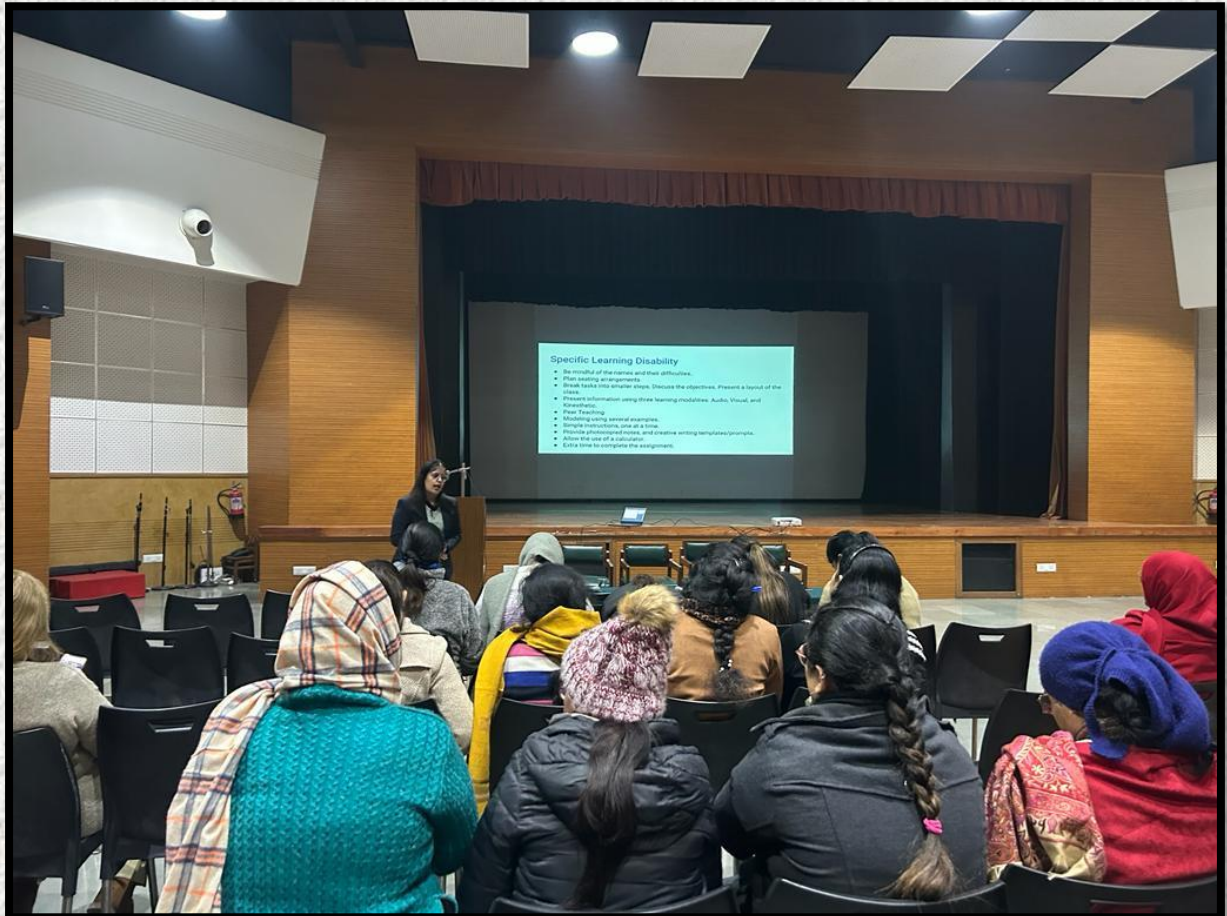

Keeping the above thought in our hearts and spirits, a session on ***Identifying and Creating Classroom Teaching Strategies for Children With Special Needs (CWSN), In Tandem With Prashast Guidelines*** was organized for the teachers of classes I - VIII was conducted on **January 12, 2023 Thursday**. The session was conducted by Ms. Tanya Batra, a rehabilitation professional and ma’am holds experience working with children with special needs of seven years.

Ma’am discussed about the children with special needs in detail. She shed light upon the various disabilities such as Specific Learning Disabilities, Autism Spectrum Disorder, Low vision, and Attention Deficit Hyperactivity Disorder (ADHD), their characteristics, and practical ways to identify the at-risk children in the classroom setup

Ms. Tanya discussed in detail about the various classroom strategies which can be used by general education teachers while planning their lesson plans and thereby leading to creating an inclusive teaching learning environment.

She discussed in detail about cooperative learning, peer engagement, and developing an environment where each and every child feels included and loved. She also shared various classroom accommodations and modifications which can be done at the classroom level to ease up the learning process for the child. The session ended with a Q&A round where the queries were taken and solved.
