SESSIONS ON CYBERCRIME AND SAFETY TO SAFEGUARD JKPS

The issue of Cyber Crimes is emerging as a big challenge for Law Enforcement Agencies (LEAs) around the world and India is no exception.

India is ranked third among the list of where highest number of Cyber threats were detected and in terms of targeted attacks. To keep jkps students aware of Cybercrime, school Counsellor Dr.Gurleen Sawhney and Mrs. Prabjot Gulati from computer department conducted workshops for all parents and students of class VIII to XII periodically during month of May and July The school Counsellor conveyed that Family is your strength and not strangers. There is No control once you put anything Online. How you use social media becomes your character certificate later.

Computer being a Target and computer being a weapon was conveyed by Mrs Prabjot Gulati. She conveyed about different cybercrimes like hacking, spamming, many other online threats. Awareness on Cyberlaws, Cyber Ethics and Cyber footprint also helped students to be alert n Safe

JKPS invited Mr Ambuj Makheeja ,cybersecurity consultant to talk to students of class XI and their parents on keeping themselves safe in this world of technology . Mrs Prabhjot Kaur and Dr Gurleen Sawhney talked about cybersafety and how to keep oneself safe on August 26,2021.All the sessions were organized to keep the students and parents well informed and take necessary precautions for their safety

Cybersafety

WAYS TO REMAIN SAFE IN THE VIRTUAL SPACE

1. Don't be a victim

2. Don't indulge in such activities that invite any action against you - Legal or otherwise

Idea 1:39 pm

CYBER CRIME

Cybercrime is a crime involving computers or digital devices, in which a computer can be either a target of the crime, a tool of the crime or contain evidence of the crime.

CYBERCRIME AND KEEPING YOURSELF SAFE

CYBER CRIME IN INDIA

According to security software firm **Symantec** "India is ranked 3rd among list of countries globally where highest number of cyber threats were detected and it is 2nd in terms of targeted attacks."

A recent study of Norton on cybercrime indicated that a **65 percent** of total of **internet users** have at some point been victims of cyber attack including viruses and malware, online credit card fraud and identity threat.

SELF IMAGE

- **SELF IMAGE** is a picture in our head containing all beliefs about what we think we are and what we can do. We act accordingly and relate to others inline with our ideas. This image forms our **Personality**
- **SELF IMAGE** is affected **ADVERSELY** in both cases

SOCIETAL IMAGE

- If anyone has to visit Principal or if parents called for deviant behavior generally effects ones societal image
